ABOUT US

New York Yacht Club American Magic is the United State's Challenger for the 37th America's Cup. We are building the high-performance sailing franchise in the United States with a dual mandate to win the America's Cup and elevate sailing in America.

Formed in 2017, NYYC American Magic combines two highly successful American racing programs, Bella Mente Racing and Quantum Racing, with one of the most prestigious yacht clubs in the world. All are united by a determination to regain the America's Cup, reconnect the American sailing base with the premier event in the sport, and elevate the quality of competitive sailing in the United States. The team is motivated by the monumental challenge to reclaim the America's Cup for the United States and uphold the legacy of the New York Yacht Club. The mission is to win the Cup by assembling a world-class sailing team, develop cutting-edge technology, and compete with unwavering dedication to achieve this goal, while inspiring the next generation of sailors.

“Science will tell you one thing, the sailor feel tells you another thing. So you have to blend them together and try to come up with a good conclusion.”

Terry Hutchinson

SKIPPER & PRESIDENT OF SAILING OPERATIONS

“We are always on
the same page and
always battling to beat
the hell out of whoever
we’re racing,”

Paul Goodison

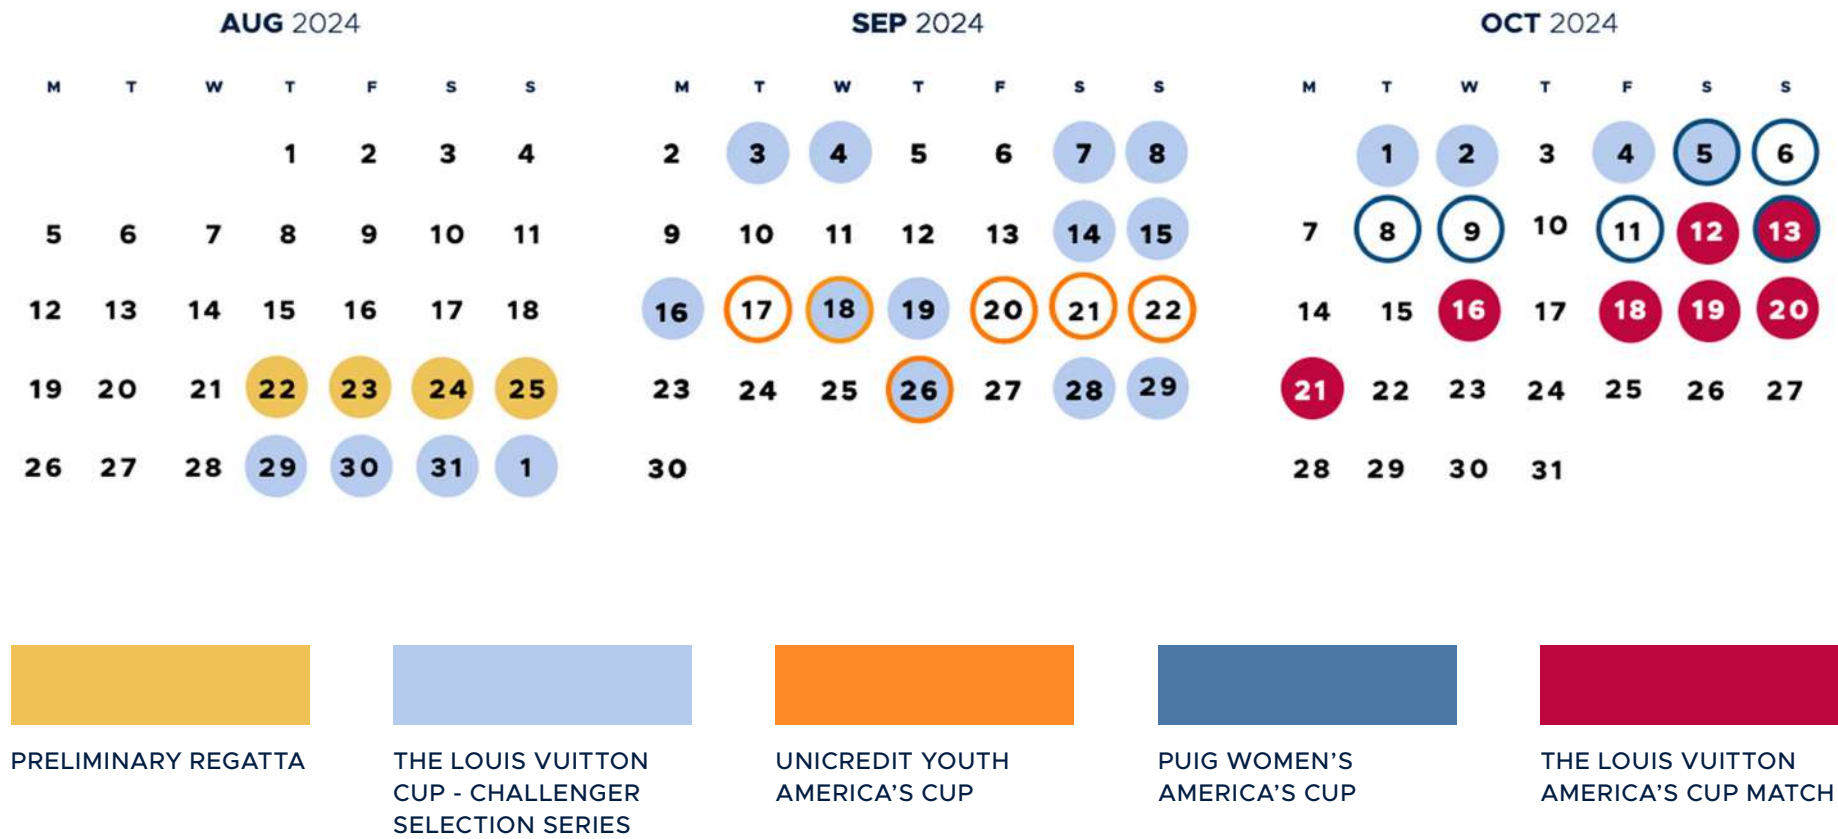

HELMSMAN

DID YOU KNOW

- ★ Cyclors are called cyclor as a result of combining sailor and cyclist
- ★ Our cyclors are from 3 different sporting backgrounds; swimming, rowing and professional cycling
- ★ This is only the second time in American Cup history that pedalling and not grinding has been used to power the yachts systems
- ★ This is the first campaign for 8 of our 10 cyclors

AMERICAN MAGIC HOSPITALITY CALENDAR

DID YOU KNOW

- ★ The overall weight of the boat when sailing is about 7000 kgs, and the average thrust pushing the yacht forward is about 500 kgs
- ★ The foils account for about 85% of the drag, the hull about 15%. Drag from the crew and cockpits is about 1% of the total
- ★ 80% of the power generated by the cyclors is used to move the mainsheet traveler

NYYC AMERICAN MAGIC SKYBOX

hospitality

Relaxed rooftop elegance with
magnificent views on the race course.

DID YOU KNOW

- ★ After launching the boat, teams can only change up to 20% of the foils (by weight), and 12.5% of the hull (by area)
- ★ The race boat is the result of 108,000 man-hours of design and 65,000 man-hours of construction
- ★ The hull shell is built in two halves, on a carbon female mold, which is built over a CNC-machined foam/steel plug
- ★ The interior shape of the 75-foot hull is scanned to millimeter accuracy, then the composite structure is CNC-machined to fit inside
